Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group I, claims 1 and 27-45 in the reply filed on 4/7/09 is acknowledged.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 27-37 are rejected under 35 U.S.C. 102(b) as being anticipated by Admitted Prior Art (Background of invention pars. 0002-0003).

a. The claimed invention is recited in APA. In regard to even and uneven the APA recites at least one which means it could be as few as one or two which covers even and odd.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 38-45 are rejected under 35 U.S.C. 103(a) as being unpatentable over Admitted Prior Art (Back ground of inventon pars. 0002-0003) in view of Willimek et al (3618191).

- b. APA discloses the claimed invention except for rotating tools rotating across a perpendicular longitudinal axis whose center is guided in a radial plane.
- c. The claims would have been obvious because the substitution of one known method for another such as rotating tools rotating across a perpendicular longitudinal axis whose center is guided in a radial plane (see fig.5) would have yielded predictable results to one of ordinary skill in the art at the time of the invention. KSR

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The 892 form discloses prior art being made of record.
